## PROJECT EXPERIENCE

---

<b>Innoventa</b>	<b>Ahmedabad, India</b>
<i>JAS Enterprise - A Food Machinery Company</i>	<i>Dec 2023 - Apr 2024</i>

- **Built** a responsive, user-friendly online store for a food machinery company using HTML, CSS, and JavaScript, delivering an engaging experience for both domestic and international customers.
- **Designed and implemented** interactive product pages and intuitive UI for equipment customization, enhancing user engagement and usability.
- **Collaborated closely** with cross-functional teams to integrate installation guidance features and frontend marketing tools, aligning UI elements with customer engagement strategies.

*My nails - A nail salon website for Booking*

- **Built a responsive, mobile-first website for “My Nails” salon using HTML, CSS, and JavaScript**, featuring Home, About Us, Booking, and Registration pages to showcase services and enable seamless user engagement.
- **Developed interactive booking and registration flows with client-side validation**, enhancing usability and preparing a foundation for customizable nail service previews and user-friendly navigation.

## CERTIFICATION

---

- Introduction to Front End Development (Simplilearn)
- Full stack Development (**Innoventa**)
