Master of Science in Information Technology(MSC IT)

(expected:2024)

KEY PROJECTS

JAS Enterprise - A Food Machinery Company

Worked as a Front-End Developer to build a responsive and user-friendly online store for a food machinery company. Designed and implemented interactive product pages, intuitive UI for equipment customization, and seamless user experiences for domestic and international customers. Collaborated with the team to support installation guidance features and contributed to front-end elements of marketing and customer engagement tools.
